Cairo, Egypt | +20 1289181425 | +20 1097307097

Flutter Developer with 4+ years of experience engineering scalable, cross-platform mobile applications. Shipped 30+ live apps across ERP, logistics, real estate, e-commerce, fitness, and social domains. Proficient in Clean Architecture, BLoC/Cubit/Riverpod, Firebase, RESTful APIs, ERP integrations, maps, real-time communication, multilingual support, UI/UX design, Git, testing, and deployment.

WORK EXPERIENCE

Flutter Developer (Part-time)
Aug 2026 – Present

Cairo Photo Club | Cairo, Egypt (Remote)

- Co-architected and maintained the ZCreatorz multi-platform media super-app deployed across Mobile (iOS, Android), Web, and Desktop (macOS, Windows, Linux) from a unified codebase.
- Engineered mission-critical workflows including media gear marketplace, verified equipment rental cycles, studio booking reservations, and real-time vendor dashboards.
- Streamlined zero-downtime production releases and deployed instant over-the-air hotfixes using Shorebird (OTA).
- Refactored legacy modules into scalable Clean Architecture with BLoC, implementing adaptive responsive layouts and native desktop window/shortcut interactions.

Flutter Developer
Dec 2024 – Present

CloudSoft5 | Cairo, Egypt

- Engineered and released 20+ ERP+ suite apps spanning HR, CRM, POS, PM, FM, Accounting, Real Estate, and Legal modules.
- Grew flagship app HR ERP+ Tracking to 10,000+ installs on Google Play within the first year of launch.
- Merged a complex ERP backend (ERPplus5.com) with GPS-based attendance tracking, real-time dashboards, and multi-module workflows.
- Accelerated app performance and resolved critical bottlenecks across hybrid Android and iOS deployment pipelines.

Flutter Developer
Jun 2023 – Sep 2025

Coddiv | Cairo, Egypt

Full-time Jun 2023 – Dec 2024
Part-time Jan 2025 – Sep 2025

- Architected and launched 10+ production apps spanning real-time video chat, marketplace, logistics, e-commerce, fitness, and on-demand services.
- Collaborated directly with clients to define requirements, align on scope, and consistently meet project milestones.
- Drove high user engagement across live apps through optimized UX, CI/CD automation, and seamless app store rollouts.

Flutter Developer
Sep 2024 – Jan 2025

Sutum ICT Consulting | Saudi Arabia

- Engineered Sutumatic POS, a cross-platform retail system released simultaneously on Android, iOS, Windows, and Huawei AppGallery.
- Implemented core retail workflows covering real-time inventory tracking, automated billing, and multi-platform sales reporting.

Flutter Developer
Aug 2021 – Dec 2021

Sejall Technology | Giza, Egypt

- Crafted and launched custom mobile applications aligned with each client's business requirements and target audience.
- Produced polished, client-specific solutions featuring intuitive UI/UX and robust backend connectivity.

PROJECTS

ZCreatorz — Unified Media Creator Super-App

Tech Stack: Flutter (iOS, Android, Web, macOS, Windows, Linux), Clean Architecture, BLoC, Shorebird (OTA), REST APIs

[Web App] [App Store] [Google Play] [Website]

- Engineered an all-in-one ecosystem connecting media creators, rental providers, and production studios.
- Delivered full cross-platform parity supporting touch-first mobile UX alongside desktop keyboard navigation and multi-window resizing.
- Implemented robust state management, offline-ready caching, and secure vendor payment/escrow flows.

Al-Riyada (متجر الريادة) — 100,000+ downloads

E-commerce retail application featuring seamless product browsing, shopping cart, checkout, payment integration, and real-time order tracking.

[Play Store] [App Store]

ERP+ SPA

All-in-one ERP mobile app covering HR, CRM, Projects, Accounting, and Real Estate modules, fully integrated with the ERPplus5.com backend.

[Play Store] [App Store] [Huawei AppGallery]

Sutumatic POS

Cross-platform retail point-of-sale system with real-time inventory management, automated billing, and offline/online sales reporting. Released across Android, iOS, and Windows.

[Play Store] [App Store] [Windows]

CFI Service Center (Chamber of Food Industry)

Official service center mobile portal for the Chamber of Food Industry, enabling member interaction, digital requests submission, and end-to-end service tracking.

[Play Store] [App Store]
